

Internship Program Admissions

Date Program Tables are updated: 8/1/18

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

Our internship program seeks applicants who have a strong commitment to serving underserved children and adolescents, an apparent passion for and previous experience working in community mental health settings, made significant progress toward completing their dissertation requirement (at least data collected), flexibility and openness to working with clients in any setting and who come from diverse backgrounds, the ability to work under pressure and multi-task, the capability to work with and learn from a multidisciplinary professional staff, a willingness to experience different treatment modalities, and the ability to be reflective about individual and cultural diversity factors, and an interest in trauma treatment. Although we have training opportunities in medical settings, the focus of the internship is on speciality mental health; therefore, applicants who are solely interested in pediatric psychology careers may not be the best fit.

Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:

Total Direct Contact Intervention Hours	<input type="checkbox"/> N	<input checked="" type="checkbox"/> Y	Amount: see below for specifics
Total Direct Contact Assessment Hours	<input type="checkbox"/> N	<input checked="" type="checkbox"/> Y	Amount: see below for specifics

Describe any other required minimum criteria used to screen applicants:

A minimum of 400 combined direct contact intervention and assesment hours is required. Applicants with no doctoral level testing experience by the start of internship will not be considered. Applicants must also have completed all their coursework for a doctorate in psychology from an APA-accredited clinical or counseling psychology program, have a majority of clinical experience with children, adolescents, and families, completed the dissertation proposal by the internship start date, passed all comprehensive or qualifying exams, and be able to pass federal and state backgorund checks. The program is primarily a clinical psychology internship program, and is limited to doctoral candidates who have a one-year full-time internship as a part of their degree requirements. The agency does not sponsor individuals for work visas.

Financial and Other Benefit Support for Upcoming Training Year*

Annual Stipend/Salary for Full-time Interns	29,640	
Annual Stipend/Salary for Half-time Interns	N/A	
Program provides access to medical insurance for intern?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
